

Timber Supply

STA Annual General Meeting

Andrew Orriss

STA Strategic Objectives 2024 – Key Priorities

To increase the specification of Structural Timber.

Maintain DEFRA support:

Continued dialogue and involvement in home-grown timber usage

Cost Viability:

Ensure cost comparisons are representative to prevent timber deselection

R&D Innovation:

Keep timber relevant through publicised R&D activities

Fire Safety Hub:

Promote data sharing and best practice

Raising the quality standard through the structural timber industry

STA Assure

- To ensure that the structural timber industry is fit for purpose

Product Check:

Only fire resilient systems used by our members

Site Safe:

All sites registered

Control of Installation:

Only STA trained installers used

STA Assure Endorsement:

Only STA Assure businesses are used by Insurers / Warranty Providers / Lenders

Risk Management:

16 steps notification & Fire mitigation assessments done on all sites

Site Check:

Onsite audit of follow on trades to ensure integrity of timber structure remains

STA Assure – In real terms
